A majority of the score must be original music written specifically for the motion picture and should not be diluted by the use of pre-existing music. The work must be recorded for use in the motion picture prior to any other usage.
 - b. Only the principal composer(s) responsible for the conception and execution of the work as a whole shall be eligible for an award. The composers who receive principal credit for the score in the motion picture will be eligible for the Best Original Score Award.
6. Acting Awards:

9. Animated Motion Pictures:
- a. Movement and characters' performances must be created using a frame-by-frame technique. Each animated image must be created or manipulated by an animator through hand drawing, stop motion, pixilation, animation software or a similar technique. Motion capture by itself (without the manipulation frame-by-frame by an animator) is not an animation technique.
 - b. Motion pictures with less than 75% animation of the motion picture’s main characters do not qualify as animated motion pictures.
 - c. Animated motion pictures are not eligible for the Best Motion Picture – Drama, Best Motion Picture – Musical or Comedy or Best Motion Picture -- Foreign Language awards.
 - d. Animated motion pictures qualify for the Best Picture – Animated award regardless of their language.
 - e. Animated foreign language motion pictures are subject to the release, eligibility and screening requirements set forth below for other foreign language motion pictures.
 - f. If fewer than twelve animated motion pictures qualify in a year, the category will be limited to three nominations that year.
10. Foreign Language Motion Pictures:
- a. Must be a motion picture drama or musical or comedy with at least 51% non-English dialogue. HFPA may request a continuity script to verify that motion pictures entered as best foreign language motion picture meet the minimum requirement for non-English language dialogue; failure to provide a requested script in a timely manner will result in the entry being rejected.
 - b. Motion pictures should be entered in the language(s) in which they were originally filmed or dubbed into English (in which case they will be eligible only for the English—language best motion picture awards). Non-English language dubbed versions of motion pictures originally filmed in English may not be entered for the Best Motion Picture – Foreign Language award.
 - c. Must be first released in its country of origin during the 15-month period from October 1 to December 31 prior to the awards.

- e. May be submitted for Best Motion Picture – Foreign Language award (and other award) consideration only once.
- f. Motion pictures that originate outside the United States need not have been released in the United States.
- g. A motion picture also qualifies if censorship prevented it from being released in its country of origin, but it had a one-week release in the United States during the qualifying period.
- h. There is no limit to the number of foreign language motion pictures that can be submitted from a specific country.
- i. Motion pictures that qualify for the Best Motion Picture – Foreign Language award also qualify for awards in all other motion picture categories except Best Motion Picture - Drama and Best Motion Picture – Musical or Comedy, which are exclusively for English-language motion pictures, and Best Motion Picture – Animated.

Motion Picture Screening Rules:

1. All members qualified to vote for Golden Globe Awards must be invited to an official screening of the eligible motion picture at a third-party facility in the greater Los Angeles area. HFPA members can also be invited to other screenings of the motion picture.
2. The selection and renting of a screening room is the responsibility of the producer or distributor of the motion picture.
3. Screenings may take place at any time before release and must be completed by one week after the release of the motion picture in the greater Los Angeles area.
4. The official screening date must be cleared with the Motion Picture Association of America (MPAA) to avoid conflicts with other official screenings. Contact Yulia Dashevsky at 818-995-6600. The HFPA office will liaise with the MPAA to clear a suitable date.
5. The deadline for the completion of all official screenings is given in the official Golden Globe Awards Timetable.
6. The official screening need not be exclusively for HFPA members. A regular screening in a theater with the public (if the motion picture is already released), a press screening, or a general screening fulfills the official screening requirement, provided HFPA members are invited.
7. In general, the motion picture's distributor or publicist sends invitations to the official screening directly to HFPA members. The HFPA office will provide a membership directory for this purpose.
8. Additional screening rules for foreign language motion pictures:
 - a. Foreign language motion pictures must be screened for all active HFPA members. Foreign language motion pictures should not be submitted for Golden Globe consideration until an official screening date for HFPA members has been approved by the HFPA. Foreign language motion pictures screened for HFPA members after November 1 each year need not be (and may not request that they be) the only event at that time on the HFPA members' calendar.
 - b. Representatives of foreign language motion pictures are also strongly advised to make

those motion pictures available to all active HFPA members in a common format.

- c. Foreign language motion pictures should be screened and made available as early in the year as possible to avoid the end of year crush, but in no event later than the date given in the official Golden Globe Awards Timetable. However, foreign language motion pictures do not need to satisfy the one-week from release date standard for official screenings for English language motion pictures.
- d. Foreign language motion pictures and any foreign language animated motion pictures must be screened and made available in their original language with English subtitles.
- e. The HFPA office can also send invitations directly to HFPA members for official screenings of foreign language motion pictures that do not yet have distributors. Please contact the HFPA office at 310-657-1731.
- f. A list of screening rooms used regularly for foreign language motion picture screenings can be found here: <http://www.goldenglobes.com/screening-rooms-0>

1. Television includes motion pictures released by broadcast, basic and premium cable and digital delivery, but does not include pay-per-view cable or pay-per-view digital delivery of motion pictures. Television also includes series and limited series released by broadcast, basic and premium cable and digital delivery and pay-per-view cable or pay-per-view digital delivery. To be eligible for Golden Globe awards, television programs must be released on a recognized media platform (individual social media accounts do not qualify).
2. Only programs first aired (or made available for viewing on demand) during the qualifying calendar year in prime time (8:00 p.m. – 11:00 p.m. Monday through Saturday and 7:00 p.m. – 11:00 p.m. Sunday) are eligible for television awards. Foreign programs are not eligible for television awards unless they are the result of a co-production (both financially and creatively) between a United States and a foreign partner, which precedes the start of production for the episodes aired during the qualifying calendar year, and which includes a written and binding commitment to show the program on United States television made prior to the start of production.
5. Reality and other non-scripted programming is not eligible for any television award category.
6. A series or a limited series must have the same on-going theme, overall storyline and main characters and must be presented under the same title and have continuity of production

Television Screening Rules:

1. Motion pictures made for television, limited series and television series (drama, musical or comedy) must be made available in any common format to all active HFPA members, preferably at the time of their broadcast but in no event later than the date given in the official Golden Globe Awards Timetable.

Special Awards:

Special awards may be given to an individual, group of individuals or an entity for exceptional contributions to motion pictures and television programs that do not qualify for an existing award category. Any HFPA member may make a written proposal for a special award, which will be subject to approval by the full HFPA membership by written ballot.

Award Procedures:

Registration:

- An entry form must be completed and returned to the HFPA as early as possible. To be listed on the official HFPA Reminder List all entry forms must be fully completed and submitted no later than the date given in the official Golden Globe Awards Timetable. The online entry form also allows the studio or publicist making the entry to upload the motion picture, television program, score and songs for individual viewing and listening by HFPA members; submitters are encouraged to use that function to make their submitted works easily available to HFPA members but uploading submitted works is not required. HFPA reserves the right to reject any entry form that contains significant factual errors or that contains inaccuracies which appear to have been intended to mislead HFPA members about the eligibility of the motion picture or television program.
- Publicists, studios and others responsible for proposing or supporting a motion picture or television program for the Golden Globe awards may not contact any individual HFPA member other than the President of the HFPA and the HFPA member responsible for that awards area (motion pictures, television programs or foreign language motion pictures) on the HFPA reminders list committee to discuss the appropriate classification of any entry during the period between the deadline for completion of Golden Globe award entries and the announcement by HFPA of its final reminders list for those awards each year. Requests to change entries after the date for completion of entries will be honored only to correct inadvertent omissions and clerical errors, and only to the extent feasible.
- The studio or publicist submitting a motion picture or television program initially determines the award categories for which it is entered (*e.g.* drama v. musical/comedy or lead v. supporting). When the award entry period is completed, HFPA members review all entries to determine whether the initial entries were made in the appropriate award categories. The members of HFPA's reminders list committee initially review the draft reminders list for entry errors and omissions and to spot potential misclassification issues. Those committee members may contact the studio or publicist submitting a motion picture or television program to discuss those issues and to resolve them informally. The studio or publicist submitting the motion picture or television program also may be asked to submit materials in support of any classifications that the reminders list committee member believes should be submitted to the full HFPA membership for discussion. If the committee believes that a motion picture or television program may have been misclassified as either a drama or a comedy, the

committee will ask the director(s) of the motion picture or television program to submit a letter justifying the initial classification as drama or comedy for submission to the full membership and for other appropriate use. Issues that cannot be resolved informally are then presented, along with the revised draft reminders list and any materials submitted in support of specific classifications, to the full HFPA membership.

- The HFPA membership then meets to discuss those issues and to review all entries in the draft reminders list. The HFPA membership, voting by written ballot, may change any award entry by a vote of two-thirds or more of the members voting. Only members who have seen a motion picture or television program will be eligible to vote on appropriate award categories for that motion picture or television program and each member must certify in writing that he or she has seen each motion picture or television program on which they vote. Any decision to change an award entry made at that HFPA membership meeting may be appealed by the submitter within three days to the HFPA Board, which shall consult with the reminders list committee on the appeal and may either determine the appeal or may submit it to the members who attended and/or voted at the membership meeting for determination.
- A studio or publicist may request a determination from HFPA, not later than August 1st of each year, of the appropriate award categories for a motion picture or television program. The HFPA members shall make such determinations by written ballot by a majority of members voting at the August membership meeting. Only members who have seen a motion picture or television program will be eligible to vote on appropriate award categories for that motion picture or television program and each member must certify in writing that he or she has seen each motion picture or television program on which they vote. If a quorum of the members voting has not yet seen the motion picture or television program in question, the members may defer the decision to the regular reminders list meeting of members.

Voting:

- Only active members vote for the Golden Globe Awards. The voting is monitored by an accounting firm and is done in two phases – Nominations and Final Vote.

Nominations:

- A nomination ballot with a “Reminders List” of qualifying motion pictures and television programs is mailed to all eligible members, requesting that each of them vote for up to five nominees in order of preference in each award category and return the completed ballot directly to the accounting firm.
- Each eligible member shall make the following certifications to the accounting firm:
 - 1) He or she was not employed by, nor did he or she serve as an independent contractor or consultant to: a motion picture, radio or television company, film commission, film festival (domestic or foreign), or their agents, in publicity or

promotion, production, distribution or marketing, or any other capacity not specifically set forth herein.

- 2) He or she has reported to the President of the HFPA and Ernst & Young LLP all instances where he or she has received gifts or favors from a potential entrant in the Golden Globe Awards competition with a value in excess of \$95.
- 3) He or she did not vote for any motion picture or television program in which he or she, or his or her immediate family or close relatives, actively participated (*i.e.*, as an actor, director, writer or producer) during the year under consideration.
- 4) His or her votes were independently arrived at and were not influenced by any other member of the Hollywood Foreign Press Association nor any award nominee, studio, network or production entity.
- 5) He or she is aware that the enclosed ballot will be used as an integral part of the awards procedure of the televised Annual Golden Globe Awards. The votes cast reflect his or her own decisions based on the criteria provided. He or she has not received or been offered any consideration or instructions from any person or persons with respect to the manner in which he or she has cast votes. He or she agrees that Andy Sale of the accounting firm of Ernst & Young LLP at (213) 977-3061 or Jeff Hylton of the NBC Program Standards & Practices Department at (818) 777-2618 will be notified immediately if anyone attempts to influence him or her to do anything in violation of the foregoing or which is in any way dishonest.
- 6) He or she has complied with all rules and regulations of the HFPA.
- 7) He or she has reported to the President of the HFPA and Ernst & Young LLP all matters that might be thought to impact his or her ability to be a fair and impartial judge. He or she understands that Ernst & Young LLP will make the final determination as to whether his or her votes will be considered as a result of the reported matters.
- 8) He or she understands that it is a Federal offense under Section 507 and 508 of the Communications Act of 1934, unless disclosed to the station or network prior to broadcast, for anyone to:
 - a) Give or agree to give any member of the production staff, anyone associated in any manner with the program, or any representative of the station or network any portion of his or her compensation or anything else of value for arranging his or her appearance on the program.

- b) Accept or agree to accept anything of value, other than his or her regular compensation for services on the program, to promote any product, service or venture on the air, or use any prepared material containing such a promotion where a participant knows the member of the Hollywood Foreign Press Association received consideration for it.
 - c) Rig or attempt to rig in whole or in part a contest or award show.
- 9) He or she certifies that he or she has not accepted cash whatsoever, nor any valuable consideration other than the lodgings and the token promotional items that are customarily and legally furnished on correspondents' (foreign and domestic) promotional activities prior to receipt for any ballots.
- The nominees in each category will be the five selections in each category that receive the greatest number of votes on the nomination ballots. In order to break ties, each member should rank their five choices in each category of the nominations ballot, by indicating their 1st choice (worth 5 points), 2nd choice (worth 4 points), etc. The accounting firm will use the points assigned in the nomination rankings only in the event of ties. The nominees in each award category will be announced in alphabetical order at the nominations press conference.

Final Vote:

- Once the nominations have been announced, a final ballot, listing the five nominees in each award category in alphabetical order, is mailed to all eligible members, requesting that each of them votes for one nominee in each category and return the completed ballot directly to the accounting firm. In case of a tie in any category, the winner will be the one of the tied nominees on the final ballot that had the most votes on the nomination ballot. In the unlikely event that after considering the nomination ballots there is still a tie in any category, two winners will be announced for that category.
- During the period from the announcement of the nominations until the final Golden Globe ballots are submitted, HFPA members should not be invited to and must not attend events (including parties, receptions, lunches and dinners and similar events) at which Golden Globe award nominees are present. HFPA members may continue to attend screenings and press conferences or official events on the MPAA calendar available to comparable members of the media at which nominees are present but may not solicit other individual press opportunities with nominees during this period.

Results and Announcement:

- The final results are known only by the accounting firm and are kept secret until the announcement at the Golden Globe Awards ceremony.

Advertising:

- Advertising of Golden Globe nominations and awards for motion pictures and television programs may use Golden Globe logos approved by HFPA for those purposes. All nominations and awards shall be identified accurately and completely in such advertising, in a manner that all parts of the award name are easily legible. No part of an award name shall be less than 33% the size of the rest of the award name (*e.g.* “Musical or Comedy” must be included in type at least 33% the size of “Best Picture.”)
- Advertisers should clearly identify award nominations as such and should not suggest that nominees are award winners prior to the announcement of the Golden Globe awards.
